

**SECTION 01150  
STORAGE OF MATERIALS AND EQUIPMENT**

1.1 THE REQUIREMENT

A. Protection of Work and Materials

1. The CONTRACTOR shall provide and maintain storage facilities and employ such measures as will preserve the specified quality and fitness of materials to be used in the Work. Stored materials shall be reasonably accessible for inspection. The CONTRACTOR shall also adequately protect new and existing work and all items of equipment for the duration of the Contract.
2. The CONTRACTOR shall not, without the CITY'S consent, assign sell, mortgage, hypothecate or remove equipment or materials which have been installed or delivered and which may be necessary for the completion of the Contract.

B. Storage of Equipment and Materials in Public Streets

1. Construction materials shall not be stored in streets, roads, or highways after unloading. All materials or equipment not installed or used in construction after unloading shall be stored elsewhere by the CONTRACTOR at its expense unless authorized additional storage time.
2. Construction equipment shall not be stored at the Worksite before its actual use on the Work nor after it is no longer needed. Time necessary for repair or assembly of equipment may be authorized by the ENGINEER.
3. Excavated material, except that which is to be used as backfill in the adjacent trench, shall not be stored in public streets unless otherwise permitted. After placing backfill, all excess material shall be removed immediately from the site.
4. The CONTRACTOR shall be fully responsible for locating and obtaining permission from the ENGINEER to establish and use stockpile sites.

(END OF SECTION)
