

Table of Contents

Summary	xiii
Chapter 1 Purpose and Need	1-1
1.1 Introduction.....	1-1
1.2 Project Location and Setting.....	1-3
1.3 Project Funding.....	1-5
1.4 Project Purpose	1-7
1.5 Project Need.....	1-7
1.5.1 Preserve Viability of 6 th Street Transportation Corridor	1-7
1.5.2 Reduce Vulnerability to Seismic Collapse	1-9
1.5.3 Resolve Viaduct Geometric and Structural Design Deficiencies.....	1-12
1.5.4 Accident History.....	1-15
1.6 Related Projects	1-15
Chapter 2 Proposed Project Alternatives.....	2-1
2.1 Introduction.....	2-1
2.2 Proposed Project Description.....	2-1
2.2.1 Proposed Action	2-1
2.2.2 Description of Existing Viaduct	2-1
2.3 Description of Evaluated Project Alternatives.....	2-3
2.3.1 Alternative 1 – No Action	2-3
2.3.2 Alternative 2 – Viaduct Retrofit.....	2-4
2.3.3 Alternative 3 – Viaduct Replacement.....	2-14
2.4 Alternative Development Process.....	2-32
2.4.1 Seismic Retrofit Alternatives Evaluation	2-32
2.4.2 Replacement Alternatives Evaluation	2-41
2.4.3 Staff Analysis Summary.....	2-54
2.5 Alternatives Considered and Withdrawn	2-56
2.5.1 Viaduct Retrofit.....	2-56
2.5.2 Viaduct Replacement.....	2-56
2.5.3 Bridge Concepts	2-58
2.5.4 TSM and TDM Alternative	2-59
2.6 Permits and Approvals Needed.....	2-59

Chapter 3	Affected Environment, Environmental Consequences, and Mitigation Measures.....	3-1
3.1	Introduction.....	3-1
3.2	Land Use and Planning.....	3-4
3.3	Community Impacts – Community Character and Cohesion.....	3-23
3.4	Community Impacts – Relocations and Business Disruption.....	3-36
3.5	Community Impacts – Environmental Justice.....	3-55
3.6	Utilities and Emergency Services.....	3-67
3.7	Traffic and Transportation/Pedestrian Facilities.....	3-80
3.8	Visual/Aesthetics.....	3-108
3.9	Cultural Resources.....	3-136
3.10	Hydrology and Floodplains.....	3-150
3.11	Water Quality and Stormwater Runoff.....	3-161
3.12	Geology/Soils/Seismicity.....	3-166
3.13	Paleontology.....	3-172
3.14	Hazardous Waste/Materials.....	3-175
3.15	Air Quality.....	3-187
3.16	Noise.....	3-221
3.17	Biological Environment.....	3-242
3.18	Any Irreversible and Irrecoverable Commitments of Resources that would be Involved in the Proposed Action.....	3-254
3.19	The Relationship between Local Short-Term Uses of the Human Environment and the Maintenance and Enhancement of Long-Term Productivity.....	3-255
Chapter 4	California Environmental Quality Act Evaluation.....	4-1
4.1	Determining Significance under CEQA.....	4-1
4.2	Resources Considered Not Relevant or Resulting in No Impacts.....	4-2
4.3	Less than Significant Effects of the Proposed Project.....	4-2
4.4	Significant Environmental Effects of the Proposed Project.....	4-5
4.5	Unavoidable Significant Environmental Effects.....	4-18
4.6	Significant Irreversible Environmental Changes.....	4-21
4.7	Growth-Inducing Impacts.....	4-21
4.8	Global Climate Change.....	4-21
4.9	Standards and Mitigation Measures for Significant Impacts under CEQA.....	4-27
Chapter 5	Comments and Coordination.....	5-1
5.1	Introduction.....	5-1
5.2	Pre-Scoping Activities.....	5-2
5.3	Scoping Process.....	5-4

5.4	Public Participation.....	5-9
5.5	Business Survey.....	5-10
5.6	Comments and Responding to Comments.....	5-10
Chapter 6	List of Preparers.....	6-1
Chapter 7	Distribution List.....	7-1
Appendix A	CEQA Checklist	
Appendix B	Section 4(f) Evaluation	
Appendix C	Title VI Policy Statement	
Appendix D	Summary of Relocation Benefits	
Appendix E	Glossary of Technical Terms	
Appendix F	Minimization and Mitigation Summary	
Appendix G	List of Acronyms and Abbreviations	
Appendix H	References	
Appendix I	List of Technical Studies	
Appendix J	Section 6002 Coordination Plan	
Appendix K	Draft Environmental Commitments Record	

List of Figures

Figure 1-1	Project Location and Vicinity Maps	1-2
Figure 1-2	Aerial View of the Proposed Project Vicinity	1-4
Figure 1-3	High-Voltage Transmission Towers in the Vicinity of the Viaduct	1-5
Figure 1-4	Cracks due to ASR	1-11
Figure 1-5	Concrete Core Sample Showing Damage Caused by ASR	1-11
Figure 1-6	Level of Damage in Various Elements of the 6 th Street Viaduct due to ASR	1-13
Figure 2-1	Steel Encasement of Columns	2-4
Figure 2-2	Conceptual Drawing Alternative 2 – Retrofit	2-5
Figure 2-3	Retrofitting of Bent Caps by Concrete Bolsters	2-6
Figure 2-4	Bent Cap Retrofit at Expansion Joints (one simply supported span)	2-7
Figure 2-5	Bent Cap Retrofit at Expansion Joints (two simply supported spans)	2-7
