**General Notes**

**Initials:** \_\_\_\_\_

1. A copy of this permit must be at the jobsite at all times.
2. All changes in sketches and permit limits must have prior approval.
3. Call for inspection before noon on the workday prior to doing any work.
4. All work shall comply with the latest edition of the "Greenbook", Standard Specifications for Public Works Construction.
5. Jobsite conditions must comply with the latest edition of the "Work Area Traffic Control Handbook" (W.A.T.C.H.)
6. Pedestrian and vehicular access must be maintained at all times. Barricades and lights must be in use at the jobsite from the start of removals to the completion of the work.
7. If the contractor does not furnish barricades and protective devices, as required, the City of Los Angeles may, at its option, provide them for a fee to the contractor.
8. All traffic lanes (including: Through, Turning, and Peak Hour lanes) shall be unobstructed from 3:30PM to 7:00 PM and 6:00 AM to 9:00 AM. One traffic lane may be closed at all other times.
9. The jobsite, including temporary resurfacing, must be maintained by the permittee until all permanent resurfacing is completed.
10. No driveway apron shall be permitted for front yard parking.
11. Sawcut all removals. No backfill or concrete shall be placed without approval of the inspector.
12. Slurry cement backfill is required in all public streets and alleys. Laterals require inspection before the backfill is placed.
13. Only Bonded Sewer Contractors are permitted to make sewer connections in the public right of way.
14. Property line connections must be completed prior to calling for inspection.
15. All permanent resurfacing must be completed within 3 weeks of the temporary resurfacing or the completion of the job.
16. All permanent resurfacing must be identified by an approved marker/tag identifying the permittee and the year the work was completed. Tags are to be placed as close to the curb as possible. For excavations less than 50 feet long, only one tag should be placed in the middle. For longer excavations, tags should be placed at 50 feet intervals and at both ends.
17. The permittee is required to contact any other agencies impacted by their work.
