November 3, 2017

Colonel Kirk E. Gibbs  
Commander and District Engineer  
Los Angeles District, U.S. Army Corps of Engineers  
915 Wilshire Blvd., Suite 930  
Los Angeles, CA 90017

L.A. RIVER LETTER OF MAP REVISION (LOMR): (NFIP CASE NO. 17-09-1781P)

Dear Colonel Gibbs:

In April of 2017, the City of Los Angeles applied for a Letter of Map Revision (LOMR) to the Federal Emergency Management Agency (FEMA) for the ARBOR reach of the Los Angeles River within the City of Los Angeles. The application included hydraulic reports prepared by the U.S. Army Corps of Engineers (USACE). FEMA’s October 23, 2017 response (enclosed) includes a summary of additional data required to complete their review of the LOMR application. The City requests USACE’s assistance in addressing the following items related to USACE’s hydraulic reports: 1, 3, 4, 5, 6, 7, 8, 9, and 10.

FEMA requires this data to be submitted within 90 days of their letter. Please let us know by November 22, 2017 if USACE can provide the data by January 12, 2018. If not, please let us know the estimated schedule to provide the data. If you have any questions, please contact Susan Shu at (213) 485-4493 or Phuoc Le at (213) 485-4564.

Sincerely,

Gary Lee Moore, P.E.  
City Engineer
