Recovery Time

Table shows recovery time based on 60°F temperature rise. The EcoSmart Mini Tank units are significantly smaller than a typical storage tank so they are able to reheat incoming water quickly and recover faster than large tank water heaters.

Applications

- Handwashing
- Kitchen
- Utility Shed
- Bathroom Sink
- Pool House
- Cabin
- RV
- Garage

Product Attributes

- Point-of-use eliminates need for long hot water pipe runs
- Compact Design - Fits virtually anywhere
- Floor & Wall Mountable - Bracket included
- Hot or Cold Water Feed
- Adjustable Temperature Control 50°-140°F
- Glass Lined Tank
- Single Weld Construction

- Status Indicator Lights
  - Green: Ready mode
  - Red: Heating mode
- Appliance cord included - Plug or pigtail
- ETL Listed: UL-174 and CAN/CSA-C22.2 No. 110
- ETL Sanitation Listed: NSF-372
- Warranty: 5 year limited leaks, 2 year components
Example Heating Applications

1. Standalone point-of-use for single fixture heating

2. Standalone point-of-use for multifixture heating

3. Standalone booster heating application from central tank system

4. Cure for the “cold water sandwich” gas tankless heating application
